

Invention Come True

Enigma

Fingerprint Access Control & Time Attendance

- 1 Sophisticated Features
- 2 Auto PUSH Data
- 3 Modern Design

Feature:

- 3.5" Color TFT LCD
- On Screen Propaganda
- Color Graphical Information
- On Screen Transaction Retrieval
- Keypad with Backlight
- Data Export to USB Flash Drive
- 8 Function Keys
- Display User Photo after scan
- Realtime Auto Data Transfer
- Work Code, Check-In/Out Status

Specification:

- | | |
|-----------------------------|--|
| - LCD | : 3.5" TFT Color LCD |
| - User Capacity | : 10,000 Templates |
| - Log Buffer | : 100,000 Transaction logs |
| - Authentication Method | : FP 1:1, FP 1:N, ID+Password |
| - ID Digit Length | : 18 Digits |
| - Identification (1:N) Time | : 1 Second |
| - Verification (1:1) Time | : 1 Second |
| - Communication | : RS232, RS485, TCP/IP, USB (Standard), Wiegand IN/OUT |
| - Sensor | : Uncoated Optical Sensor |
| - FAR | : 0.0001% |
| - FRR | : 0.1% |
| - Integration | : RF Card or Smart Card (Optional), Printer |
| - Access Control | : Door Relay, Door Sensor, Alarm, Bell |
| - Power | : 12 Volt DC / 500 mA |
| - Operating Temperature | : 0-45 C |
| - Humidity | : 20-80% |

Offering Access Control and Time Attendance features:

Enigma is a fingerprint authentication device, specifically designed to provide personal identification.

Preventing identity theft, fraud, and unauthorized access.

This is also a great tools for Time Attendance management system with sophisticated features that suit your requirements.
